PROFESSIONAL EXPERIENCE

Senior Performance Engineer, American Express June 2021 - Present
Bengaluru, India

- Led performance engineering initiatives for American Express Payment Network Authorization systems, achieving peak volumes of 6,000 transactions per second (TPS) through optimized load testing, profiling, and microservices tuning.
- Architected a Shift-Left Performance Testing Framework integrated with GitHub Actions, enabling automated performance validation during CI/CD and reducing post-production performance defects.
- Designed and implemented chaos engineering experiments across distributed payment applications to identify resiliency gaps and improve system fault tolerance under adverse conditions.

Performance Engineer, Amdocs India LLC Nov 2019 - June 2021
Pune, India

- Part of Microservices-based Digital Application NFT Testing Team in Amdocs Core (R&D division). Agile-based monthly drop release Application Testing and Certification on various platforms like Openshift (Kubernetes), AWS EKS environment.
- End to End Performance Test Execution, Monitoring, Test Result Analysis, and Profiling of Microservice-based application using Jmeter, Kubernetes, Openshift, Couchbase, Kafka, Prometheus, Grafana, and AWS services.

Software Test Engineer, Petrolink Data Services July 2019 - Oct 2019
Pune, India

- Gather Non-Functional requirements from the product team. Create and review Performance Test Plan.
- Execute various test runs like Load, Stress, Endurance, Failover.
- Monitor CPU and Memory utilization of application server to ensure no performance bottlenecks are occurring.

Software Test Engineer, Accenture Solutions June 2015 - August 2015
Pune, India

- Develop test scripts using protocols - Web(HTTP/HTML), WebServices in Loadrunner.
- Performing Admin tasks for Storm runner tool which included processes liketracking and solving execution related issues, setup of load generators.

SKILLS

- Jmeter and K6
- Dynatrace, Grafana and Prometheus
- AWS, Openshift, Kubernetes
- Github Actions and Jenkins
- Heap and Thread Dump analysis
- Python and Shell scripting

EDUCATION

B. Tech - Civil Engineering
VIT Vellore
2012 - 2016
CGPA - 8.86

HSC (12th) - 81.00%
Delhi Public School,
Bhilai, Chhattisgarh
2012

SSLC (10th) - 93.10%
Delhi Public School,
Bhilai, Chhattisgarh
2010

CERTIFICATIONS

AWS Certified Solutions Architect Associate(SAA)

AWS Certified Cloud Practitioner - (CLF)

Microsoft Certified: Azure Fundamentals

AWARDS

Centurion Award 2025
American Express

Awarded to top 1% Technology colleagues for their outstanding achievements
